WANT TO KNOW HOW BAD INFLATION IS:

My neighbor got a pre-declined credit card in the mail.

CEOs are now playing miniature golf.

ExxonMobil laid off 25 Congresspeople.

I saw a Mormon with only one wife.

McDonald's are selling the one-fourth ounce.

Angelina Jolie adopted a child from America.

Parents in Beverly Hills fired their nannies and learned their children's names.

A truckload of Americans was caught sneaking into Mexico.

A picture is now only worth two hundred words.

When Bill and Hillary travel together, they now must share a room.

The Treasure Island casino in Las Vegas is now managed by Somali pirates.

Called to get Blue Book Value on my car. They asked if gas tank was full or empty.

Me: I have many hidden talents 😎

Someone: Like What?

Me: I don't know, They're all hidden 😞

Mosquito trap

The mosquito lands on the salt, thinking it's sugar. They get thirsty for water, but the cap has rum in it. The mosquito gets drunk, trips on the stick and bangs its head on the rock.

This really works!

I need those tires.

I found this interesting as you can see it was manufactured 3,300 years ago!

On June 8, 2022, PROBUS gathered for an outing with a visit to St. Andrews. About ten members were able to attend the tour of the "**HUNTSMAN MARINE SCIENCE CENTRE.**" This was followed up with lunch at the local. "**Red Herring Pub.**" A later issue of *The Phoghorn Newsletter* will feature the story on that tour. A fun time was had by all with the suggestion "**this should be done more often**"
