## **Can you relate to these stories?**

**A grandmother was telling her little granddaughter what her own childhood was like. "We used to skate outside on a pond. I had a swing made from a tire; it hung from a tree in our front yard. We rode our pony. We picked wild raspberries in the woods."**

**The little girl was wide-eyed, taking this all in. At last, she said, "I sure wish I'd gotten to know you sooner!"**

**. A grandfather was delivering his grandchildren to their home one day when a fire truck zoomed past. Sitting in the front seat of the fire truck was a dalmatian dog.**

**The children started discussing the dog's duties. "They use him to keep crowds back," offered one child.**

"No," said another, "he's just for good luck."  
A third child brought the argument to a close. "They use the dogs," she said firmly, "to find the fire hydrants."

### **New Brunswick Social Pediatrics**

In late 2017, the NB Social Pediatrics Research Program was launched with funding from Saint John Regional Hospital Foundation. In less than 5 years, we have grown our team from one research coordinator and clinical lead to a large network of staff, clinical partners, students, community service providers, volunteers, and families. We have also created a charity partner organization to help serve over 300 patients and clients, while the demand for services continues to grow.

Children in New Brunswick are slipping through the cracks. Child literacy rates in New Brunswick are among the lowest in Canada (StatsCan, 2004), while the child poverty rates are among the highest (SJHDC, 2017). Children in New Brunswick who aren't keeping up academically are facing much more complex and pervasive issues like unsafe and inadequate housing, food insecurity, as well as neglect, abuse, and the lack of a social support network.

Soon to be president, **Don Mitchner**

## Pondering Ponderisms:

- ★ Why do peanuts float in a regular coke and sink in a diet coke. Go ahead and try it.
- ★ I used to eat a lot of natural foods until I learned that most people die of natural causes.
- ★ How important does a person have to be before they are considered assassinated instead of just murdered?
- ★ Why do you have to "put your two cents in," but it's only a "penny for your thoughts"? Where's that extra penny going?
- ★ Once you're in heaven, do you get stuck wearing the clothes you were buried in for eternity?
- ★ What disease did 'cured ham' actually have?
- ★ How is it that we put man on the moon before we figured out it would be a good idea to put wheels on luggage?
- ★ Why is it that people say they "slept like a baby" when babies wake up like every two hours?
- ★ If a deaf person has to go to court, is it still called a hearing?
- ★ Why are you IN a movie, but you're ON TV?
